

RIYANSH SACHDEV

riyansh10@gmail.com | (+91) 7715829631 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Jersey City, NJ

SKILLS

- **Data Analysis & Visualization:** Excel, Google Sheets, Tableau, Power BI, Pandas, data cleaning, trend analysis, statistical modeling
- **Programming & ML:** Python, R (RStudio), SQL, Java, Machine learning algorithms, data pipelines, RAG, LangChain
- **Databases:** PostgreSQL, MySQL, SQLite, Redis, Spark, Hadoop, HBase, Firebase
- **Office & Productivity:** Microsoft Word, PowerPoint, Google Workspace, Canva, Figma, Attention to detail, Git, GitHub

EDUCATION

- **Master's of Science in Computer Science** **Sep 2026 - May 2028*
New York University, Tandon School of Engineering Brooklyn, NY
Relevant Coursework for Semester I: *Design & Analysis of Algorithms I, Software Engineering I, Big Data*
- **Bachelors of Technology in Computer Engineering** *Aug 2022 - May 2026*
Mukesh Patel School Of Technology, Management & Engineering Mumbai, India
CGPA: 3.63/4.0

EXPERIENCE

- **Software Development Engineering Intern | Finseal Software Services Pvt. Ltd.** *Jan 2026 - Present*
 - **FinRAG:** Built a financial document Q&A app using a LangChain RAG pipeline over ChromaDB with a SQL-backed Plotly analytics dashboard; supports local or cloud LLMs and passes 117/118 automated tests.
 - **TradeFlow:** Built a real-time market-data backend in Go handling live feeds; sustained 500 concurrent users across 300 instruments with zero dropped messages at ~100ms latency.
- **Business Analyst Intern | VA Global Business** *May - July 2025*
 - Organized and cleaned the company's purchase and sales financial data, turning raw spreadsheets into accurate, structured reports.
 - Built interactive dashboards used by leadership for pricing and procurement decisions, maintaining accuracy across all records.
- **Technology Executive | Association for Computing Machinery (ACM)** *Aug 2023 - Jul 2024*
 - Organized technical events alongside a committee team, managing logistics from planning through on-site set-up and execution.
 - Taught Python and C++ fundamentals to first-year university and higher secondary school students, breaking down technical concepts clearly for beginners.

PROJECTS

- **Finetuning Large Language Models by DeepLearning.AI** *Oct 2025*
 - Implemented an end-to-end LLM fine-tuning pipeline using Transformers and PyTorch, covering dataset preprocessing, gradient-based weight updates, and performance benchmarking.
- **Pneumonia and Tuberculosis Detection from X-Rays** *Sep 2025*
 - Trained and benchmarked deep learning models to classify chest X-ray images achieving 84.83% validation accuracy.
- **Earthquake Prediction & Magnitude Forecasting** *Apr 2025*
 - Built regression and classification models (Scikit-Learn) to predict earthquake magnitude and severity across India, with interactive Folium risk-zone visualizations.
- **Show Booking Platform** *Mar 2025*
 - Developed a microservices system (4 services, API Gateway, Netflix Eureka) with JWT-based authentication and MySQL persistence.

PUBLICATIONS & AWARDS

- **QueryMate – Linking Natural Language to SQL Queries.** *Jan 2026*
 - Sachdev, R., Garg, P., Bhuva, A.
Peer-reviewed conference paper on a natural-language-to-SQL system, presented at ICAIDISS 2026, Sharda University Agra.
- **Toycathon winner | Issued by MoE's Innovation Cell, Govt. of India** *Jun 2021*
 - National hackathon win for a GUI educational game in Python (Tkinter, Turtle, Pandas, NumPy, MySQL) promoting game-based learning.

CERTIFICATIONS

- **IBM RAG and Agentic AI Professional Certificate** *May 2026*
 - GenAI specialization building RAG, multimodal, and agentic applications with LangChain, LangGraph and vector stores.
- **AWS Academy Graduate - Cloud Architecting - Training Badge** *Oct 2025*
 - Demonstrated proficiency in designing and deploying scalable, secure, and cost-efficient cloud solutions on AWS.
- **DeepLearning.AI & Stanford Online Machine Learning Specialization** *Jun 2025*
 - Completed a 3-course specialization covering supervised, unsupervised, and reinforcement learning plus recommender systems.
- **IBM Data Science Professional Certificate** *Sep 2024*
 - 10-course program in Python, SQL, data visualization, and ML, capped by a pipeline predicting SpaceX launch outcomes.
